

FELINS

Pak-Tyer 2000
Quick. Versatile. Reliable.

Introducing a Felins Exclusive

Only Felins offers the ATS, a completely automated tying station for your in-line production needs. The ATS combines the Series 2000 Tyer, in any size, with two sections of split slider conveyor. Built to your specifications, this completely customized unit will fit into your existing facility.

Eliminates Unnecessary Handling

A photo electric sensor on the ATS detects bundles as they move from the delivery conveyor to the tyer and activates the trip to set the tying cycle in motion. After the bundle is tied, it is discharged onto an accumulation roller table, or conveyor.

Rotary Tyers

Offset Tyers

Tandem Tyers

Custom ATS

Coil Tyers

	Model:	2000-6	2000-8	2000-10	2000-12	2000-16	2000-22
