

## ALTS

### PIVOT ARM TYING

From backlogs to rework to labor shortages, we know the laundry industry faces challenges unlike almost any other.

That's why we designed our Automated Laundry Tying System (ALTS) specifically for improving PPOH in commercial and industrial laundries.

## OPERATIONAL EFFICIENCY

The ALTS is the most robust laundry tying machine on the planet.

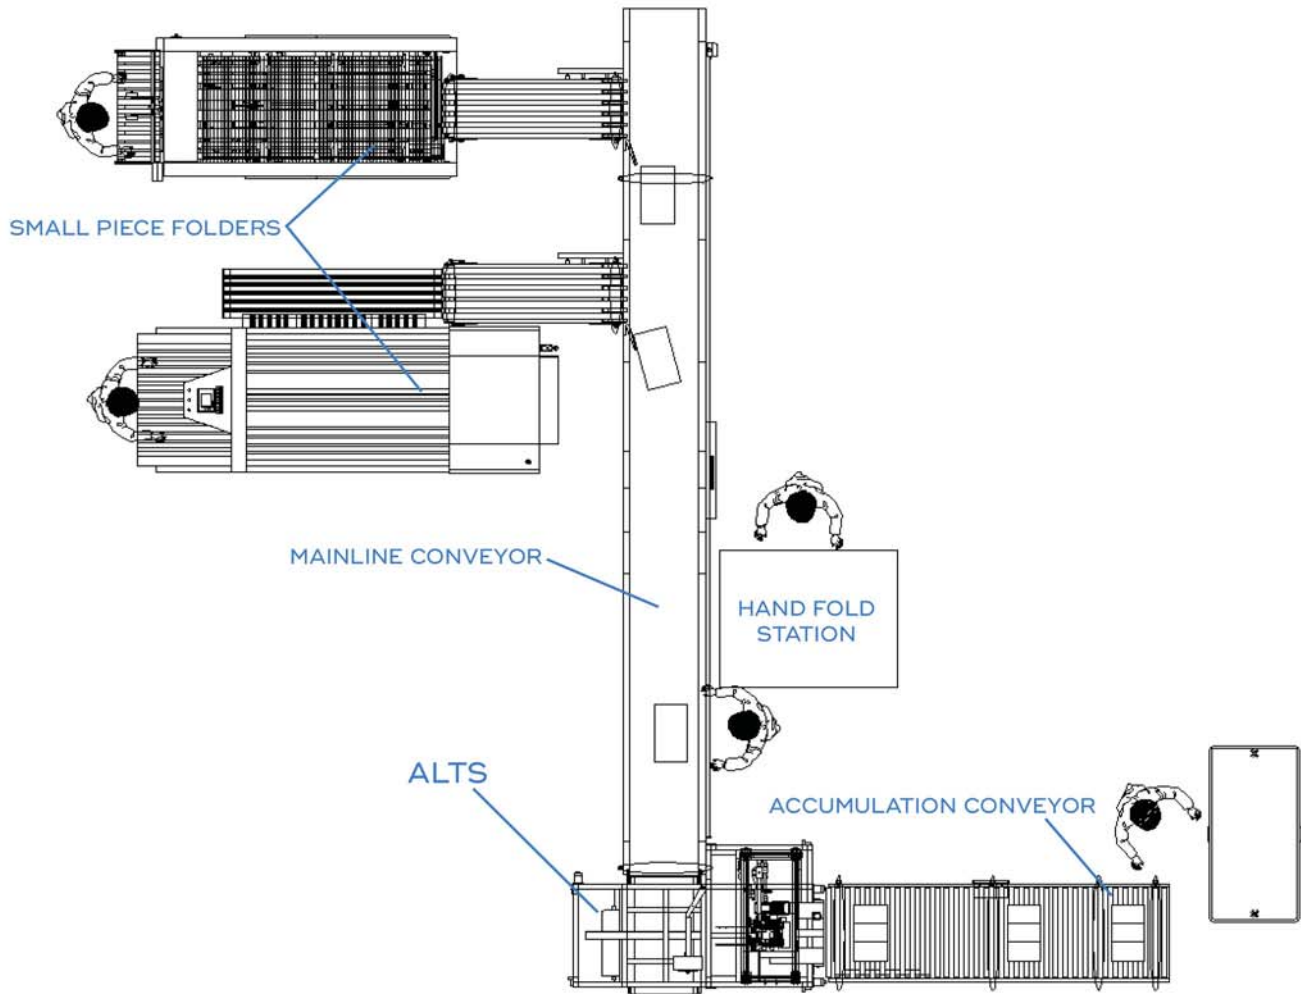

When installed with Felins laundry conveyance, this system is capable of automatically tying up to 720 bundles per hour while significantly reducing operating costs.

What does that mean for you? It means you can focus on your operations and not worry about your pack out area.

## A FEW HIGHLIGHTS

- Minimal maintenance requirements
- Designed and built in the US
- World-class technical service post-sale
- Utilizes economical twine and polytape materials
- Free training for life

# SAMPLE LAYOUT & SPECS

MODEL:	ALTS 300/420
MACHINE DIMENSIONS:	91"W x 75"H x 55"D
MAX. BUNDLE HEIGHT:	12"H / 16"H (300 / 420)
POWER REQUIREMENTS:	115V
AIR REQUIREMENTS:	100 psi / 5 cfm, clean-dry air
SPEED:	Up to 12 cycles per minute
