

TP-100

SHRINK WRAPPING

When they're clean, textile products and laundry should stay that way. But since manual wrapping is so labor intensive and dangerous, it can be difficult to find the best solution.

Our line of semi-automatic TP shrink wrapping systems is designed to make wrapping a breeze by lowering operating costs, reducing worker injury and improving your PPOH.

OPERATIONAL EFFICIENCY

With a small footprint, the TP-100 is designed for facilities that want to eliminate hand wrapping but don't have volume for a fully-automated solution.

Combined with a fully controllable heat tunnel and adjustable conveyors, the TP-100 can wrap as fast as 2 or 3 hand wrappers, making improving your PPOH easier than ever. Talk about efficiency!

A FEW HIGHLIGHTS

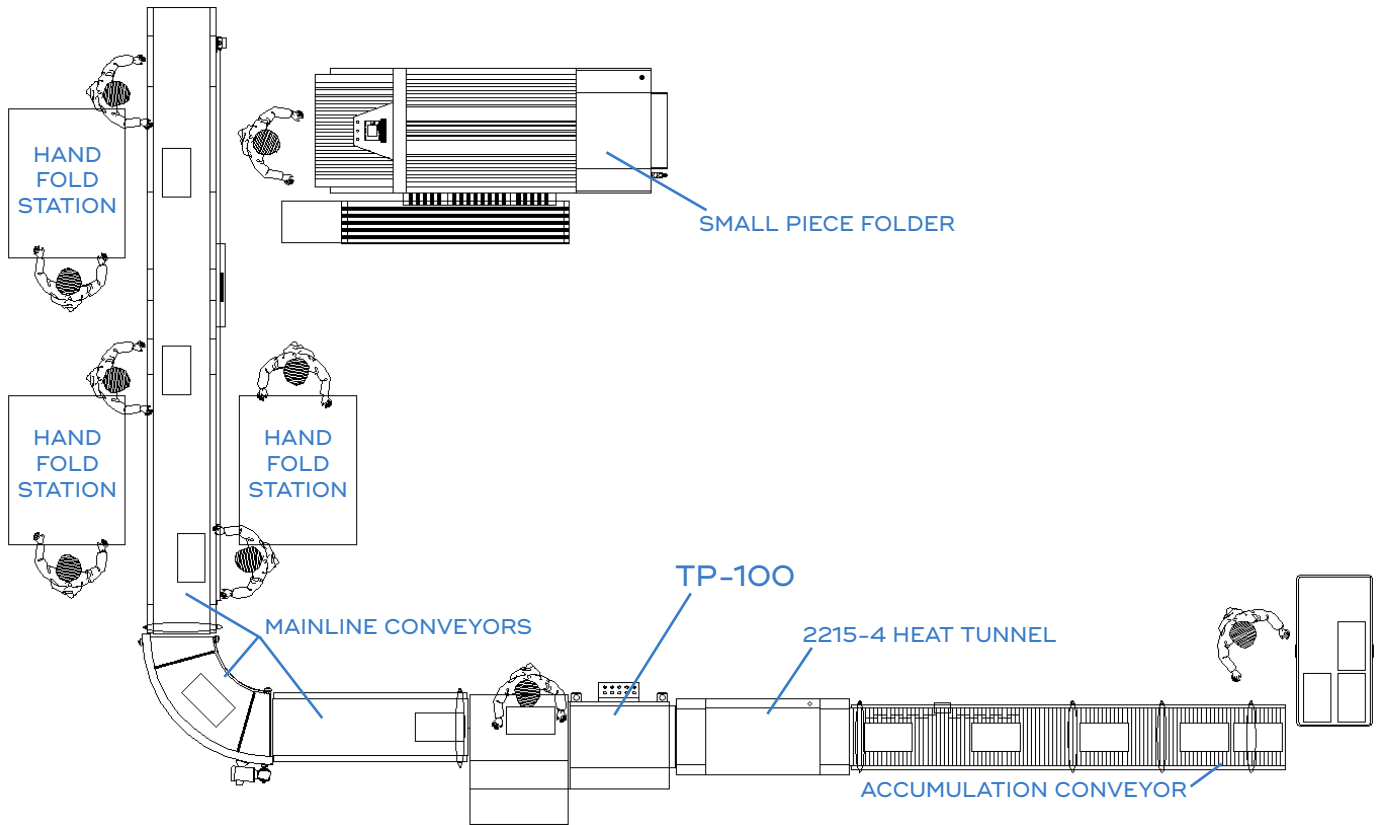

- Minimal maintenance requirements
- World-class technical service post-sale
- Compatible with a variety of materials
- Free training for life
- Easily accommodates large laundry bundles

A FELINS PARTNERSHIP

At Felins, we pride ourselves on developing strong partnerships with our customers. From inquiry to installation and training to preventative maintenance services, we'll help you find a custom solution that best optimizes your operations and minimizes packaging waste.

After all, we're inspired to create innovative alternatives because every packaging decision should help, not hurt, our planet.
