

TAG-TYER

PIVOT ARM TYING

Manually applying rubber bands or elastic twine to tags? It's time consuming and leads to repetitive motion injuries.

That's why we offer the Tag-Tyer, a machine specifically designed for applying elastic loops to tags with minimal manual operation. Just pull the tag across the table and let the Tag-Tyer do the tying for you!

OPERATIONAL EFFICIENCY

The Tag-Tyer features an ergonomic design that makes product pass-through quick and easy.

With a compact unit design, operators can process tags and loops of various sizes faster than ever before.

At speeds up to 40 tags per minute, the Tag-Tyer can help improve your efficiency and reduce operating costs for years to come.

A FEW HIGHLIGHTS

- Minimal maintenance requirements
- World-class technical support post-sale
- Utilizes economical elastic materials
- Free training for life

I LOVE FELINS' MACHINES. THEY ARE RELIABLE, [REQUIRE] VIRTUALLY NO MAINTENANCE, AND THE MATERIAL COST IS THE LOWEST AVAILABLE!
