

JD SERIES

HEAT SEAL BANDING

Increase your productivity by replacing manual processes with a semi-automatic banding machine!

With heat seal technology, our JD series banding machines are compatible with both paper and plastic material, giving you a variety of options and flexibility for bundling your products.

OPERATIONAL EFFICIENCY

We know increasing throughput is your end goal. That's why we offer entry-level machines priced for facilities first introducing banding to their operations.

Capable of completing up to 25 bands per minute, the JD's light-weight, table-top design combats labor fatigue and backlogs so you can focus less on bundling and more on your upstream operations.

A FEW HIGHLIGHTS

- Manual or automatic activation
- Tension control provides “edge protection”
- Minimal maintenance requirements
- World-class technical service post-sale
- Compatible with a variety of paper and plastic banding materials
- Free training for life

THE WRAPPING AND BANDING SOLUTION FELINS GAVE US FIT ALL OUR CRITERIA. WE ARE VERY HAPPY WITH OUR CHOICE AND ARE LOOKING AT OTHER WAYS TO USE THIS TECHNOLOGY.
