

ROTARY PAK-TYER™

ROTARY TYING

Tying shouldn't be a hassle, even when your products require strong tension.

The Rotary Pak-Tyer™ (RPT) helps optimize your operations by doing the tying for you and keeping your products firmly bundled with single, double and even cross-ties.

OPERATIONAL EFFICIENCY

Efficient production is effective production. Why slow it down with manual tying or a machine that requires constant maintenance?

Reliability, portability, flexibility - the RPT has it all.

No matter the size of your facility, desired throughput or variety of product sizes, the RPT can quickly become one of your most valuable assets.

A FEW HIGHLIGHTS

- Minimal maintenance requirements
- World-class technical service post-sale
- Utilizes economical materials including elastomer, twisted poly, polytape, and twine
- Free training for life
- Multiple machine sizes available

I LOVE FELINS' MACHINES. THEY ARE RELIABLE, [REQUIRE] VIRTUALLY NO MAINTENANCE, AND THE MATERIAL COST IS THE LOWEST AVAILABLE!
