

TP

SHRINK WRAPPING

When they're clean, textile products and laundry should stay that way. But since manual wrapping is too labor intensive and dangerous, it can be difficult to find the best solution.

Our line of semi-automatic TP shrink wrapping systems is designed to make wrapping a breeze by lowering operating costs, reducing worker injury and improving your PPOH.

OPERATIONAL EFFICIENCY

The smallest of our shrink wrapping systems, the TP is a semi-automatic machine perfect for laundries first beginning automated wrapping or looking for a small footprint.

Combined with a fully controllable heat tunnel, the TP is perfect for small bundles of medical gowns, blankets and other laundered products.

A FEW HIGHLIGHTS

- Minimal maintenance requirements
- World-class technical service post-sale
- Custom laundry films available
- Free training for life

WE SAW THE WRAPPER AT A PARTNER'S FACILITY AND IMMEDIATELY PUT IT ON OUR WISH LIST.

- MARQUITTA SAMPER, VOGUE LINEN
